

RED RIVER AGGIE

The Arithmetic of Saving

DIVIDE your income sensibly—

SUBTRACT useless expenditures—

ADD to your savings account regularly, and you will

MULTIPLY your chances of success.

The foregoing is a lesson in mathematics which the First National Bank hopes that every student of the Northwest School of Agriculture will learn before he is graduated, because to know it will surely make for his future success.

This strong bank pays 4% compound interest on savings accounts.

The First National Bank
