

Uncle William.

WILLIAM DIETRICH Animal and Dairy Husbandry

This volume is too well known to A. C. readers to require elaborate description. Lest some Freshman may not appreciate the book when he sees its covers, we beg to testify to a few of its qualities which have won our esteem. It is a book of high scientific value and a veritable guide to longevity through careful feeding.

"It is wise to investigate your prospective partners."

People's Man.

O. M. KISER

Extension

One of the best but least known books in our library. A work dealing with farm problems of unusual interest to this great N. W. It will pay anyone to get acquainted with this volume filled with problems scientifically solved.

The Farmer and His Friends.

A. R. KNUTSON

Extension

A real encyclopedia on all sorts of agricultural subjects all verified by practical experience. Among the chapter topics are "Our Humble Friend, the Potato," "The Golden Grain," and "Concerning Cows."
