

CLASS PROPHECY

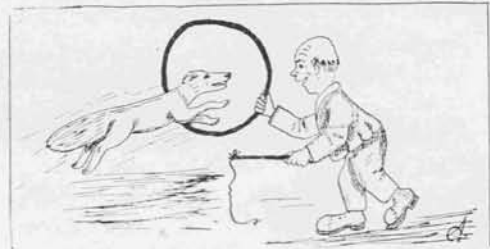

Oscar Gigstad takes great interest in music. He has composed several musical compositions of merit.

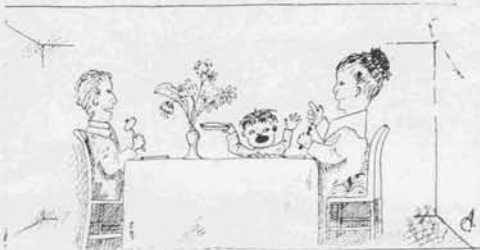

Sam Anderson is a prosperous farmer. His favorite saying is: "Make haste slowly," and, like the proverbial tortoise, he gets there.

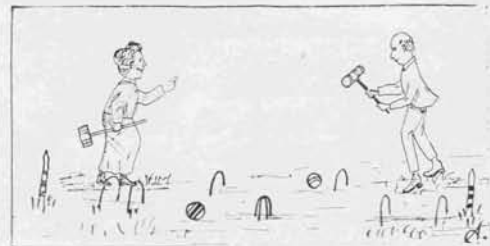

Fred Johnson is an up-to-date breeder of beef cattle. He has developed a new breed whose superiority consists in their having a large proportion of lean meat over the bones.

George Davids teaches animal husbandry in the Bagley High Schools with wonderful results, as shown in the improvements of youthful minds and of live stock.

Carrie Ovnán is busy demonstrating successfully that the place of woman is in the home.

The prophet's glance of Ethel Westburg was so momentary that he could not see distinctly, but she seemed to be playing croquet.
