

ORGANIZATIONS

MUSICAL

Music has always been one of the good subjects that the Northwest School of Agriculture has had to offer to its students but it is only now beginning to come into its own among other activities.

It received a decided impetus in the right direction with the coming of our new instructor in music, Miss M. Lucille Holliday and our band leader, Prof. G. Oliver Riggs.

The regular music classes are instructed in musical appreciation, ear training and sight reading.

Interest in music has been stimulated to such an extent that a larger number of students have applied for special instruction in piano, violin and voice than could be accommodated by one instructor, necessitating the engagement of an additional instructor, Miss Kohler, of Crookston, to assist in giving instruction on the piano.

A new feature is the classes of from four to six pupils organized to receive special instruction on the piano and in voice culture.

The musical organizations consist of band, orchestra, chorus, boys' glee club, girls' glee club and four quartettes.

Musical numbers are a delightful feature of our Monday evening programs.

The cantata, "A Nautical Knot," given Feb. 6th at the Farm Crops Show mainly by students of this school under the direction of Miss Holliday, won much praise. At the request of the management of the Farm Crops Shows, it was given again the 9th of February.

GIRLS' GLEE CLUB
