

CLASS HISTORY

In the year of our Lord Nineteen-hundred and Sixteen there were registered on this campus one hundred and thirty-seven bright faced and enthusiastic looking Freshmen. They were composed of six different nationalities—French, Norwegian, Swede, Irish, German and Scotch. It is not often that a Freshman class is able to break into prominence during its first year of existence, but this class was an exception to this rule as was shown by their fine record of which they might well be proud. They took an active part in the various school activities and records show that in basketball and football they even had boys on the first team. Much of their success was undoubtedly due to the able guidance of Mr. and Mrs. Larson who had been elected class advisors at the beginning of the year.

In their Junior year their number was greatly decreased because of the draft and those who had to fill the places of their brothers that had answered the call of their country. The ones that did come back tried to do their part by contributing generously to the different organizations such as the Y. M. C. A. and Red Cross. The class gained additional honors along the line of athletics and public speaking, and it was said that the Juniors would some day be noted speakers. This year they were also enriched by the arrival of a class mascot, Bobby Larson.

In the fall of nineteen-hundred and eighteen, there was a remarkable change noticeable in the Seniors who arrived. Although their number had been reduced to twenty-four, they lived up to the old adage "Quality not Quantity." They were handicapped at the beginning of the term because of the irregularity due to an over-supply of the well known enemies, the flu germs, and also the absence of their class advisors who had joined the field of war workers and did not return until after Xmas.

Their happy three years of school life ended the 28th of March. It was with joy mingled with regret that the members of the Senior Class departed for their respective homes. No doubt, these Seniors will ably adjust themselves to the circumstances of life with which they will have to contend. To Supt. C. G. Selvig, Mr. and Mrs. Larson, and the faculty, who so patiently guided them thru their school life they will always have a deep feeling of appreciation.
