

GREETING TO THE CLASS OF 1921,
NORTHWEST SCHOOL OF AGRICULTURE:

You have received your training in this school. You are now out in active work meeting the real tests of life. One of the hardest tasks you will have is to judge wisely and justly your fellow men. Not to be misled by superficial thinkers, not to crucify your real friends because of false witness borne against them, not to lose your faith in God and in His goodness, but to cherish the finest ideals and to give of your income, your energy and enthusiasm to a noble cause—these are the thoughts I wish to leave with you.

May each one of you live long, happy and useful lives, cherishing the friendships you have formed and meeting, sincerely, earnestly, and with a smile, the call life extends to you!

Sincerely yours,
C. G. SELVIG, Superintendent.
