THE song contest held this year undoubtedly surpassed in quality and excellency any previous one. The classes displayed unusual ardor and enthusiasm in their individual practices and competitive efforts to win the silver cup. The fact that a fourth class, the Advanced, also competed, stimulated the efforts of the other groups.

The Seniors had made unusual progress since their previous appearances and only by a small margin lost the cup which for the second time went to the members of the class of '24 who were present with their usual capability. The Juniors and Freshmen received third and fourth places, respectively.

As a whole, the 1924 song contest was a big success both for the stimulation of school spirit and the pleasure that comes from taking part in any musical event.
