Freshman Class History

WHEN the members of the class of 1928 entered their respective classes on September 29, 1925, they received an impression that will surely stay with them through the coming years. Both faculty and students were willing to help in all the things that seemed so new to them.

The class of 1928 has made a remarkable record in the short time they have been at the school. As Freshmen they surprised everyone by tying with the Senior class for second place in the annual Song Contest. They have shown considerable interest in debating and athletics and, in fact, all school activities. Robert Johnson showed his ability as a public speaker when he gave a splendid talk at the get-together dinner before Christmas.

Under the able guidance of our class advisers, Mr. and Mrs. A. M. Pilkey, and with the motto "Keep Smiling," the class of '28 promises to be one of the outstanding classes in the history of the school.
