

Class Advisers

E have come to the parting of the ways, Class of '27, and our pleasant associations are about to be severed. During the past three years we have developed an affectionate friendship for you all. Your kind co-operation and willingness to help in all class matters has made it a pleasure to work with you. In your many walks of life after leaving the Northwest School, may you meet with good fortune and success. Remember always that through SERVICE and SACRIFICE you will attain the highest ideals of life and character. Your accomplishments here are the stepping stones to those of the future. Stop not satisfied with these; if so, you will be lost, be classed as a failure, and be regarded as a parasite to society. Instead, be somebody, so that you will have something of worth to give to somebody else.

Sincerely yours,

LAURA A. GERBER,
DELMER H. LAVOI.
