### CLASS HISTORY

With the aid of Mr. and Mrs. Pilkey as advisers, the class of '28 was re-organized with Chester Torgerson as president.

The Junior Class takes an important part in all school activities such as athletics, music, and literary societies. One of our Juniors, Teddy Carlson, is the president of the Y. M. C. A.

This year our class had more members represented in Home Project work than any other class. Elida Erickson won the Silver Trophy. Others who won honors were Esther Viker for the Sewing Project, Teddy Carlson for the Crop Project and Harold Norseth for the Tractor Project. Two Juniors were on the grain judging team which represented the school this year. They are George Berggren and Arthur Sandal. Teddy Carlson was the alternate on this team.

A large number of the Junior boys were on the football squad last fall and Harry Confer, George Berggren and Elmer Wardeberg received letters. The Class of '28 shows a great deal of interest in basketball also. The second team was largely made up of Juniors. Our class team lead in class games played, and will be good material for next year's first team.

One of our greatest aims is to make out motto, "Keep Smiling," represent the spirit of the class.
