In Which We Say Our Last

There is nothing left for us to do but settle back to watch the presses roll off the work of our hearts; then to await your judgment.

In this last work of ours there are many whom we wish to remember. Outstanding among these are the personnel of the Buckbee-Mears Engraving Company, especially in Mr. F. D. Fredell have we found a companion in helping us solve our problems and one who has aided us materially in our plans for the book. The Sanford Press of Faribault and Mr. Glenn M. Schroeder, the President, are responsible for the fine work in printing as well as help in making the task of compiling this book a lighter one. To Mr. John Benson, of the Benson Studio, goes the credit for the unusually fine photographs in the book, and to Mr. Maynard Hedrick, credit for the high class art work which appears between its covers. Mr. R. S. Dunham, for his kind help, Mrs. DeEtte Cenfield Genung, and Miss Retta Bede are others to whom we must express our appreciation.

We are sorry to see our book completed, because with it our work comes to an end. The many feverish afternoons and evenings spent in assembling its contents have created a lasting friendship within its staff.

The spirit in which the work was done is just another indication of how truly we apply our school motto "WE SERVE."

The satisfaction of achievement is ours—the book is yours.
