

Advanced

WE, THE Advanced Class of 1929, shall soon be divided and scattered throughout the entire Red River Valley as faithful disciples of the spirit of our dear Alma Mater, the Northwest School. During the past four years our instructors have put forth their best efforts to bring us out of the darkness of ignorance into the bright light of the lamp of knowledge and to there shape each individual so that he or she might be fitted for some work which would benefit mankind. It now remains for the members of our class to go out into the world and seek the places which fate gives as a reward for service. To the succeeding Class of 1930, we therefore give our books and classrooms, our beloved instructors, and our social activities along with our sincere wishes for their success in life.
