 Fourth row: Wedul, Widseth, W. Johnson, Spong, Askland, Cordes, Tangjerd, E. Johnson, Torgerson, H. Johnson.

## Music

**M**USIC hath charms! Contests add flavor! Music is undoubtedly becoming one of the main centers of attraction at the Northwest School. Like all other growing institutions, it has room for improvement, but progress has been splendid, nevertheless, and will continue to be. Our Chorus, Girls' Glee Club, Boys' Glee Club, Senior Quartette, Mixed Group soloists, and other functional organizations have added to the spice of assembly programs and outside school activities. Recitals given under the auspices of Miss Warne, Miss Polski, and Miss Brown, offered opportunity for all students to perform before an audience some time during the year. This gave them a chance to develop an attitude of appreciative listening which they could gain in no other way.

Both faculty and students performed at the Winter Shows held in February. The Northwest School contributed its talent to this great educational week, forming an indispensable part of the program.

The Song Contest was held December 19 and the classes responded with unexcelled enthusiasm. For four weeks previous to the contest, each class practiced diligently under their respective leaders. The Freshmen chose as their leader, Arthur Hendrickson; the Juniors, Alvin Degerness; the Seniors, Lowell Ryden; and the Advanced, Chester Torgerson. The Seniors were given first place, the Advanced second, and Juniors third. It was inspiring to witness the splendid efforts of each class. The Auditorium added scenic pleasure to the eye, as it was decorated with the colors of all four classes.

Yes, music hath charms, and the Northwest School has proved itself a wonderful institution because of its charming music.
