

## Home Projects

HOME project work is required of all students of the Northwest School. During the summer months students work at home on various projects, such as livestock, grain, vegetables, clothing, and cooking. Work on these projects is supervised by Mr. E. R. Clark, Mr D. H. La Voi and Miss Retta Bede. Each fall, after the school year has begun, such projects as can be brought to the school are exhibited at our annual Parents Day and Home Project Show. Awards for the year 1928 were distributed as follows:

- Selma Waldal, Plummer, girls sweepstakes, silver trophy.
- Olga Johnson, Plummer, second highest in girls sweepstakes, ten dollars.
- Florence Hanson, Mentor, cooking, ribbon.
- Alice Erickson, Pencer, sewing, ribbon.
- Johanna Caudle, Crookston, cooking, honorable mention.
- Estelle Filipi, Angus, sewing, honorable mention.
- Verner Karlin, Hawley, boys sweepstakes, silver trophy.
- Harold Roadfeldt, Salol, second highest in boys sweepstakes, ten dollars.
- Abraham Paquin, Oklee, livestock project, ribbon.
- Theodore Anden, Fergus Falls, crops project, ribbon.

Each year the number of projects during the summer months has increased and students take a great deal of interest in their work.

## Special Scholarships

Many institutions and organizations are making permanent contributions to the agricultural development of Northwestern Minnesota by offering scholarships to students attending the Northwest School.

The First National Bank of Thief River Falls, the Farmers and Merchants State Bank of St. Hilaire, and the Marshall County State Bank of Holt are paying the expenses of one young man from each community for the full winter term. The winners, Einar Barstad of Thief River Falls, Lloyd Johnson of St. Hilaire, and Bennie Thompson of Holt were selected from a large group of nominees by specially appointed local committees.
