

Advanced

We, the class of 1929, take this opportunity to say our last farewell. During our happy associations of the past four years, we have steadily climbed the "Ladder of Knowledge." We, however, have ascended only a small portion of this ladder, and it is our cherished hope that some of the class will reach the top. With "Forward Ever, Backward Never" as our motto, we shall strive to gain our foothold upon another rung in the ladder of success.

We numbered over one hundred at the bottom rung, but one by one they have fallen by the wayside leaving only "Thirteen" who have overcome all obstacles. Many others have come to join us during our four happy years.

We have now reached a "Landing" from which we start a new flight of steps. With the Northwest School as our "Guiding Light" we shall not stumble or falter in the many tasks that lie before us.

—EVELYN BAIN.

*"Many a night o'er our books we'd pore,
In the years we've worked together,
Tho' our school days will soon be o'er,
The memories will live forever."*
