

TOP ROW: H. L. Johnson, Omundson, Tangjerd, Anden, Pearson, H. Johnson, Flom.
FIRST ROW: C. Peterson, Malme, Coach Avery, Bierbaum, Knutson.

Debate

An important activity at the Northwest School is debating. We have a triangular debate every year between this school and the agricultural schools at Morris and Fargo. Each school is represented by one affirmative and one negative team.

From the study of debate one learns:

- How to get information on any subject—
- How to find the main issues in any problem—
- How to deliberate carefully and judge soundly—
- How to keep physical and mental self-control—
- How to speak clearly and distinctly —
- How to present to others the truth as he sees it—
- How to distinguish between fact and error.

The Northwest School has been represented by many strong teams during the past seven years under the direction of Mr. E. W. Avery.

Resolved: that the jury should be abolished—is the question for debate this year.

Special interest has been taken in this work during the last years and the squad is working with the determination to hold the record set, by winning again the triangle championship.

—WINTON KNUTSON.
