### IN LOVE WITH LOVE

The Northwest School Senior Class play for this year was a modern comedy, "In Love With Love," by Vincent Lawrence. The story concerns a pretty girl who is trying to make up her mind as to which of two suitors she shall choose for a husband. Complications ensue when a third young man, who believes he is but an innocent bystander, is drawn into the struggle. Young people in love is always a popular theme, and in this play, the story is developed in an unusually breezy and novel manner. The cast for "In Love With Love" was as follows:
