

Arthur Widseth Athletic Scholarship Memorial Award

Presented by

DELMER H. LA VOI

This medal is to be awarded to the boy in the Advanced class who has done outstanding work in athletics as well as having attained a high scholastic average. The selection is to be made by the faculty. Preference is to be given to boys who have participated in two sports unless the faculty decide otherwise, in which case the award is to be made to one of the sportsmen who has been active in other extra-curricular activities beside athletics. A resident rule restricts the award to students who have been at least three or four years at the Northwest School.

Mr. La Voi wrote as follows:

East Lansing, Michigan
October 22, 1930

"I have always been interested in stressing a high scholastic standing in the personnel of the Northwest School athletic teams. One of the best teams I was associated with while I was there was composed of a group of boys who were good students and loyal players.

In order to further stimulate these combined qualities of study and play, I would like to present a medal at the close of the school year to the member of the Advanced class who makes the best scholastic record and athletic record while in attendance at the Northwest School. This medal will also serve as a reward for services given and for sacrifices made during hours of preparation.

It is to be a remembrance of one of the boys who was not only a keen student and a worthy scholar, but a clean loyal player and a great athlete as well. The above qualities of school and sport were well represented in this young man. May his good will be a guide and continue to manifest itself in the interest of clean sportsmanship, hard fight, and a true school spirit in all future teams."
