 FRONT ROW: Phillip, Newhouse, Anderson, Hedstrand, Bedard, Dunn, C. Brandli, E. Brandli.

## The 4-H Club

Students who come to the Northwest School and who have a keen interest for 4-H club work, are offered the privilege of belonging to the school's 4-H club. This club is a social gathering for the members and it gives them the true and worthwhile facts about 4-H club work.

Our club here at the Northwest School, was organized for the purpose of instructing the members to learn what 4-H club work really is, and also to give the members the training of appearing before an audience. Our programs are inspiring as well as instructive. At each meeting new problems are brought up.

Great interest is shown to the 4-H exhibitors at the Winter Shows. They are invited to a program and party given by us at our college and we can say that they enjoy their visit with us

Several of our members have an interest in the production of livestock, and through their interest of this work, they have won many educational and enjoyable trips. One of our members got a trip to the National Dairy Show, another to the International Livestock Show, and others received trips to the Junior Livestock Show at St. Paul. We also can proudly boast that one of our members was the champion bread baker at the 1930 Minnesota State Fair.

In our club work, we strive to make the best better.
