

Red River Aggie

AN HONOR

We, of the Northwest School, are proud to announce that our superintendent, Mr. Dowell, now has won the degree of Doctor of Philosophy, an honor which the University of Minnesota conferred upon him in December.

Dr. Dowell took his graduate work at the Iowa State College, graduating with the B. S. A. degree. Following graduation, he was appointed instructor in Animal Husbandry at his Alma Mater. Two years later he was appointed professor and chief of the Animal Husbandry division of the University of Alberta and served in that capacity until 1922, when he joined the Agricultural Extension Staff of the University of Minnesota.

Superintendent Dowell was granted a Master's Degree at the University of Minnesota in 1925. He completed his graduate work at the University of Minnesota and the University of Chicago, specializing in the field of Agricultural Economics. His Doctor's thesis was written on the subject, "An Evaluation of the Advantages and Disadvantages of Minnesota Agriculture in World Competition."

Dr. Dowell is completing his sixth year as Superintendent of the Northwest School and Station, and his eleventh year as a member of the Staff of the University of Minnesota.

TO THE CLASS OF 1933

The Northwest School has graduated nine hundred students from the regular three year course, and over three hundred from the advanced year. In addition to this group of graduates, approximately three thousand young men and women have been in attendance one or more years.

The majority of these young people are to be found on farms and in homes scattered throughout Northwestern Minnesota. They have made a place for themselves in their home communities, with an increasing number assuming positions of leadership.

As you—Members of the Class of 1933—pass out into the open spaces, where you are to make your contribution to society, we hope that you will receive much joy and satisfaction in being of service to your fellow men. It is our hope that in your thinking, you will reach beyond provincial boundaries and include the nations of the world of which we are a part.

We want you to remember that your achievements will reflect credit upon the school of which we are all so proud.

Sincerely,

A. A. DOWELL,

Superintendent.
