

## Red River Aggie

Back Row—Gault, Gault, Skaren, Skaren, Billberg, Billberg, Widner, Quantock, Martensen, Oistad.  
 Second Row—Peterson, Widseth, Widseth, Opdahl, Mjelde, Tack, Tack, Quantock, Widner, Kersting,  
 Oistad, Kersting, Carlson.  
 Third Row—Sitko, Holst, Holst, Chapman, Stromberg, Stromberg, Sagmoen, McVeety, Hedstrand,  
 Nisbet, Martenson, Holte.  
 Front Row—Gustafson, Larsen, Carlson, Chapman, Lerud, Mjelde, McVeety, Steen, Volker, Hughes.

### OUR PARENTS

**WOMEN'S CAMP.** The activities of the Northwest School are not limited to students during the six school months. The summer finds the campus very much alive as well as beautiful. The mothers of our students and many other women of the Red River Valley gather for valuable instruction and well deserved recreation for several days. This year the Women's Camp was held June 20-23. On these eventful days our mothers forgot the everyday work of the farm and engaged in horseshoe hunts, games, programs, exhibits, contests, and demonstrations. All of them voted the Women's Camp a most successful and happy week.

**LIVESTOCK FEEDERS' DAY.** Livestock producers from all over Northwestern Minnesota assemble for a day on the campus to inspect the experimental work done here in livestock. The program of the day's events revolves around the popular weight guessing contest, inspection of beef calves, and lectures in the afternoon. June 14th last summer was the date for this occasion, and was very well attended by the fathers of our students.

**CROPS AND SOILS DAY.** Visitors on the campus last summer on July 28th, were shown all the phases of the station activities in agronomy and horticulture. The advantages of pure seed and improvements in crops and soils were demonstrated by our faculty members.

Whole families came to the campus, which was in full summer foliage, visited with friends, and enjoyed picnic lunches.
