4-H CLUB

The 4-H club at the Northwest School is a voluntary organization of active 4-H club members. This is the fourth year that the club has been functioning. This year definite problems are discussed at the meetings in order that the members may better understand the objectives of 4-H club work, methods of procedure in program building, 4-H club projects, and other phases of the 4-H club program. A number of the former and present members through their initiative have organized clubs in their home communities. Others are working with county agents and leaders, helping them all they can. Two former members have been successful part-time leaders on a county-wide basis.

The 4-H club exhibitors at the Winter Shows, Crookston, were guests of the club on the Northwest School campus on Tuesday and Wednesday evening. A two-hour program was staged the first evening with the assistance of the Northwest School students and the Happy Hustlers Club of West Polk county. The second evening was given over entirely to games and recreation.
