

Dried Molasses Beet Pulp

.... FOR SALE

Direct From Producer to Consumer

Dried beet pulp will replace 1-3 of the hay ration and increases very much the digestion of any grains being fed. Also increases milk flow of dairy cows and ewes.

The Northwest Agricultural College at Crookston uses this pulp in feeding trials and knows its value.

Used by hundreds of dairymen and feeders.

AMERICAN BEET SUGAR CO.

East Grand Forks, Minn.

NOTE:

Are you using Crystal Brand sugar made from beets grown here at home in the Red River Valley of the North?

There is none better.

Insist on Crystal Brand sugar hereafter. It costs you no more and will tend to increase price hundreds of Red River Valley farmers will receive for their beets.
