We, the Advanced class, wish to take this opportunity to bid a fond farewell to you and our beloved school. Our school days are quickly coming to a close. It is with a feeling of intermingled joy and sadness that we look back upon the four years we have spent here in close association with our schoolmates and teachers.

During the time spent here in work and in play we have continually strived to maintain the high ideals of the school and we feel that we have not failed. The members of our class have taken active parts in all school activities and we have taken our share of the honors.

We are proud of the fact that we are one of the largest Advanced classes to graduate from this school although many of the original members have been unable to return and complete their education here.

As we go out from under the guiding hand of our instructors we wish to say to the classes that are to follow after us: "Combine your work and play so that you may be a credit to your Alma Mater by upholding and improving its ideals and standards."
