

The "A" Club celebrated its first birthday anniversary by initiating twelve new members into the organization. The club now has an active membership of twenty-one. Graduation last year removed from the active membership ranks the entire staff of officers. New officers were elected for the year.

The constitution of the "A" Club recognizes all former "A" men as honorary members. "A" Club certificates have been mailed to all honorary members. Active members of the club will be given certificates upon completion of their work at the Northwest School.

The certificates are very neat and attractive; a large block letter "A" in maroon and gold centers the page. The name of the student is inscribed in Old English print; the activity and year in which he won honors are also appropriately inserted. The certificate is signed by the superintendent and faculty adviser of the club. The many fine expressions received from the honorary "A" Club members have indicated their undying spirit of loyalty to the Northwest School and the high ideals of sportsmanship and scholarship for which it stands.
