

OTHER AWARDS

Who Is the Most Popular Girl?

Rose led in the scoring but was not so far ahead of Jean and Helen. Of course there were the usual number of people who voted for themselves but we will be kind enough not to mention their names.

Who Is the Most Popular Boy?

Of course, the contest had to go to couples, so naturally Rodney led the scoring for the boys. Clow again trailed a close second but the fact that Russel was not in school spoiled Helen's chances of getting a higher score.

Who Is the Cleverest Boy?

"Swede" has been known to work his humor overtime but we agree that he's just about as apt to get a laugh out of us as anyone, especially when he begins to tune up.

Who Is the Prettiest Girl?

Gentlemen may prefer blondes but Aggies prefer brunettes and I guess that just about disproves the argument for the majority of voters are of the male sex.

Who Is the Handsomest Boy?

Orville got four votes which gave him a double lead over all other contestants. We would like to know who else he got to vote for him. Grant came next with two votes which all goes to show what a marcel will do for one.

Who Is the Biggest Eater?

We wonder why someone didn't mention a faculty member since they seem to spend the most time at it. It seems Clarence never objects to cleaning up the table.

What Girl Is the Biggest Heart Breaker?

Of course, we couldn't count the ballots which were just marked "mine." And that all brings us around to the idea of "how can one break many hearts when one's affections seem so centered on one person?"

Who Is the Noisiest Student?

Floyd just talked himself right into this place and received most of the votes except for the few Freshmen who voted for Stilaf.

Who Is the Noisiest Faculty Member?

This really was almost a draw but we remembered that a woman always gets the last word so that put Miss Bede one word ahead of Mr. Mlinar.

Who Is the Shyest Student?

We didn't explain exactly what we meant by this so the votes can't be considered very accurate. You see it all depends on what you are shy of, like for instance: words, women, coin, intellect, etc. We flipped a coin and let "words" have it; so the vote goes to Stilaf.
