

Freshmen Class History

Rain fell in the Red River Valley. Crops and flocks flourished and a group of strong and substantial farmer parents sent their young sons and daughters to enroll as Freshmen at the Northwest School in that fall of 1934.

Rather as a thundering herd they appeared—ninety-eight of them. And possessing, shall we say, unusual, or at least, promising talents.

Following pre-established customs they assembled at an early date for popular election of advisers and officers to guide them through this most important

first year. Miss Hennig and Mr. Kallal graciously accepted their duties.

Young men and women at the Northwest School labor industriously but they have their moments of play. An early gathering arranged the successful class party which was held October twenty-seventh.

With future plans in mind they chose their motto and flower, and their pep leaders who represented them at major activities.

Permeated by the new spirit of youth and optimism in the country, they hope for great things.

Freshmen Class Roll
