

HELEN GIBBONS CORA WALTERS
State Champions, 1923

New activities have stimulated interest in the boys and girls. Many of our club members have a better appreciation of country life because of the conservation of wild life activity. Participation in one-act plays and music contests are helping to meet the recreational needs of communities.

At the present time there are sixteen county agents and four assistant agents, one home demonstration agent, and one club agent employed on full-time in the district. A number of counties have had part-time club agents for the past several years.
