

With every beat in the March of Time something vital and interesting has happened to enrich our life at the Northwest School.

Mr. William J. Promersberger

To Mr. William Promersberger, affectionately known as, "Bill", we, the Senior class of '38, wish to dedicate the March of Time. During the two and one half years that he served as our Class Adviser, his friendliness, patience, and ability endeared him to us. While it is true that the Aggie Board especially misses our candid cameraman, the entire class feels the loss of our "Pa". To pay a small tribute to him for the many services he has rendered us we wish to name him dedicatee of this section of our annual.

*as Candid Cameraman*
