## "HAIL AND FAREWELL"

We, the class of 1940, came to this school in the fall of 1937 meek and undecided, but equipped with enough determination to orient us to campus life. There were 127 freshmen in our class. We chose as our advisers Miss Meyer and Mr. Kallal whose help and advise were invaluable in the organization of the class. Throughout our Freshmen and Junior years we took part in all inter-school activities and learned that the value of sportsmanship counted more than the glory of victory. Indirectly we owe much of our success to Miss Meyer who was such an inspiration to us.

The opening of the fall term of the 1939-40 school year found 112 Seniors back to complete their work. As our advisers of the preceding year did not return we chose Miss Warne and Mr. Dunham to guide us. They have capably seen us through our Senior year.

Our year has been very beneficial and enjoyable. We have made many new friends whom we will always remember. This annual will be a lasting memory to the very pleasant associations of our Senior year at the Northwest School.
