Cross country, in its third year as a sport at the Northwest School, is growing in popularity. The increase in the squad from year to year is proof that the student body is becoming interested in this activity.

The 1939 season produced two cross-country

meets, both with St. Paul. It was a home and home arrangement, the squad journeying to St. Paul in November; the campus meet was run off late in October. Coach McVeety was able to interest many students in this activity and prospects for next year are bright.
