Monday and Thursday afternoon visitors to Kiehle Building hear strains of classical and semi-classical music emitting from the auditorium. It is the orchestra practicing under the direction of Miss Marion Frykman. The group has appeared on many school programs and usually are given the honor of the opening spot. Their presentation of classics and semi-classics has given the program a dignified opening which carries through to make the assembly most impressive.

Under Miss Frykman's direction the orchestra has grown not only in quality but in quantity and the number this year is the largest in the history of the school.
