FRESHMAN CLASS

The class of 1945, which first made its appearance on our campus in the fall of 1942, promises to be a very progressive and enthusiastic class. The present membership of the class is 97. Although it always takes a little time for the freshman class to become acquainted with the campus, adjusted to school life, and familiar with school activities, this class has done so in record time. In the school contests this year, the Freshmen won third place in the Outdoor Festival, and won fourth place in the Song Contest. The class elected two capable advisers in Miss Frykman and Mr. Barron, and the permanent class officers were elected only after the members of the class had had sufficient time to get to know each other. Thus their class officers have shown definite leadership and ability. Because of their fine start, much is expected of the Class of 1945.
