ORCHESTRA

Every instrumental player should have the experience of combining his talents with those of other players in a group musical effort such as the school orchestra. The four sections of the orchestra, strings, woodwinds, brass and percussion must learn to work together to give a unified musical performance.

Under the direction of Miss Marian Frykman, this organization rehearses each Tuesday and Thursday evening in the auditorium. During the school year it performs on the Parents' Day and Christmas programs, furnishes music for the Christmas banquet and Commencement exercises and joins with the band in presenting an annual spring concert. The orchestra appreciates having the able assistance of Miss Ingwelde Pfitzner on the violin.
