To us, the Advanced Class, it seems hardly believable that the time has come to end our career here at the Northwest School. In the next few weeks we will be scattered not only throughout the Valley, but in all parts of the world, determined to put into practice what we have learned here. With the help of our motto, "Forward Ever, Backward Never", we know we will succeed, whatever our line may be.

An actively progressive class, we will leave our milestones here at the Northwest School. As juniors we put over with vim the Junior-Senior Banquet and Prom, which carried out a circus theme. The highlight of our senior year was, of course, the AGGIE of 1943, constructed under the handicaps of war conditions. As one of our class advisers did not return for our advanced year, we chose Miss Georgene Hanson in her place. To Miss Hanson and Mr. Foker we wish to express our appreciation for having guided us past the last milestone in our high school career.

As we complete this memorable last year at the Northwest School, our thoughts go to those former classmates who are now dutifully serving our country, both in civil and in military capacities; and though we leave our school with something of regret, it is with pride that we look forward to joining their ranks.
