On Mondays and Wednesdays of every week sweet strains of music float down the stairways of Kiehle Building. What is it? you ask. The choir, of course! The choir practicing for some special event.

This year the choir made its debut at the annual Parents' Day program in the auditorium. Following this first performance, the choir members have busied themselves with preparations for their spring concert scheduled for the last of February. Their repertoire includes negro spirituals, folk songs, and romantic choral literature representative of the nineteenth century American and British composers.

Growing interest in this organization has been demonstrated by the marked increase in enrollment. Miss Georgene Hanson, director, and Miss Jean Schanke, accompanist, have combined their efforts in making the choir one of the most popular "fun" groups on the campus.
