Freshman Class

A new generation of students entered the gates of the Northwest School on October 1, 1945, to step on another of the many stepping stones that have and will come into their life.

After the fear of registration, the tour of the campus, the introduction of class rooms and faculty, they were quite ready to settle down. They chose as their class advisers, Miss Peterson and Mr. Lysaker.

This class has already made many friends among themselves as well as the upper classmen.

The class in itself has proved very promising. Already they have received third place in the Annual Song Contest. We hope they will enjoy their freshman year here and come back to finish their full four years.
