Crops Judging

Crop judging is an extra-curricular activity dealing with the identification of grain crops, weed seeds, potatoes, legumes, grasses, diseases, and weed plants. The team also judges six classes of crops and votes them according to the merits of each sample.

The contest is held in connection with the Winter Shows. Usually six schools enter in the contest.

Our team which consists of three members and an alternate, spend a great deal of time in preparation for the event.

The coach this year is Mr. Olaf C. Soine, who is head of the Agronomy Department.
