

## *Dedication*

It seems fitting that just a year after commemorating the fiftieth anniversary of the founding of the Experiment Station, we dedicate this 1946 AGGIE to the man who has given of his time and energy in working for the betterment of this institution. In June Superintendent T. M. McCall will have been an integral part of the Northwest School and Station for thirty-five years.

It is with pleasure that we offer our book in dedication, a small monument to the years of constructive labor he has given to the Northwest School and Station.
