DONNA MAE KISSEL

SALLY MAHER

THEA MYREN

WILLIAM C. SUNDBERG

Enriching the musical lives of students at the Northwest School daily are Miss Kissel and Miss Maher. This is done in individual as well as group training and is made available to all students showing musical interest and ability.

Miss Kissel directs the advanced choir, which consists of the selected singers from all classes, as well as the girls' and boys' glee clubs. Much of her time during the day is devoted to private voice students.

Piano lessons are the order of the day for Miss Maher. In addition to that she is official accompanist for all musical groups. She also directs a popular small vocal group, the boys'

quartette.

In our well-equipped health service, we may find at any time at least one of our two nurses. Miss Myren, the head nurse, also has a class in home nursing. Mrs. McCrea works with her in performing the health service duties.

It is Mr. Sundberg's business to make sure students see light in science classes. He is boys' counselor and faculty advisor to the active dormitory council in Robertson Hall. Students interested in leathercraft, model building, and photography receive expert advice and help from Mr. Sundberg.
