

rovides entertainment and inspiration.

Musical organizations play a very important part in the campus life of our "song birds" and other music enthusiasts.

As freshmen we all started training our voices and singing "do-ra-me-fa-so-" between classes and in group vocal classes under the direction of our music teacher.

The select group of songsters, the advanced choir, demonstrate their wares on Parents' Day, at Christmas programs, and other miscellaneous programs off campus. The boys' and girls' glee clubs compete to see whether the "fair ladies" or the "gentlemen" can put on the best performance for their parents and friends on Parents' Day, Armistice Day, and

at various concerts and programs.

Our "Pep-Band", playing the "Minnesota Rouser," increased the school spirit and enthusiasm to a high pitch at our basketball games. The band is a featured attraction on various programs during the year.

Last, but not least, come our smaller groups. We receive much inspiration from the boys' quartette, girls' ensemble, and piano duos. The boys' quartette inspired our football team to "Roll over Morris" on our Homecoming program, but the team didn't succeed. The girls' ensemble first appeared at the Christmas program while the initial appearance of the piano duos was at the spring concert.
