National Honor Society

Those of us who have been elected to National Honor Society are proud of the highest honor the school can bestow. Tuesday afternoons often found us in Mr. Reiersgard's office. These meetings were discussions that will influence our lives and give a perspective that will be valuable for future use.

With National Honor Society we logically link Debate, a spur to thinking clearly. Miss Kjorlie has a store of wisdom which makes her students richer for their association with her. The time spent doing research on the topic of Conscription turns out to be a worthwhile experience.
