

PATRICIA HARMON

FAE HUGHBANKS

ROBERT HULLINGER

They must be catching up on the latest news and gossip.

DARLENE JOHNSON

MRS. ALICE ITTNER

Because of MISS HARMON'S genial personality, all students enrolled in music organization and also those who take private voice lessons from her really do a lot of hard work. Yet they receive a good deal of enjoyment in performing under Miss Harmon's direction. Do you want to make someone a good secretary or stenographer? Then be sure to take a course in typing, shorthand, or bookkeeping from our very competent instructor, MISS HUGHBANKS. Isn't school interesting any more? Can't you find anything to do? Just find yourself a frog and come to one of MR. HULLINGER'S classes in biology or maybe you'd rather do an experiment in his chemistry class. To help us put the finishing touches on our English and improve our speaking ability, we have MISS JOHNSON who teaches junior English and American Literature. She is also the advisor for the Aggie Board. With classes of freshmen English, geometry, and putting on freshmen assembly programs you'd think MRS. ITTNER would have enough to do. But she still takes the time to direct the Junior Class Play and to offer a helping hand to anyone who needs it. Why the line up of students in front of the dining hall? Guess they're all anxious for the doors to open so they can get some of that good home cooking done under the careful planning of MISS KINGSTON. Maybe the girls taking quantity cookery even had a hand in the preparation of the meals.

ELSIE KINGSTON
