Cross Country

Participation and much interest, both from students taking part as well as spectator interest . . . the cooperation of every member on the team . . . spirit and determination to win . . . the loss of the conference title to Morris . . . determination to bring back the trophy next year . . . and the election of Dale Neslund as next year's captain, sum up this year's track season.

Track is the maximum test of one's endurance. Each member of the team must have the will to win, be in top physical condition, and have the energy to give that last spurt at the finish line.

Keep those feet high.

On your mark, get set, go!
