

The muscle men on the campus are well trained in the skills and techniques of the grapple game. These mat men, under the direction of Philip Larson, become seasoned wrestlers that compete in the Aggie Conference and also have meets with several other teams in the Northwest. Quick thinking and good muscular co-ordination are first requisites for the wrestling team. Wrestling not only develops the entire body, but by pitting man against man it is a contest of brains as well as brawn.
