In the spring of last year the Headwaters Club organized and drew up the constitution for the Student Council. The Headwaters Club was then dissolved and the Student Council took its place. This organization is composed of the National Honor Society and two representatives from each class.

Anyone with a good suggestion for the betterment of school conditions can present it to the Student Council in person or write the suggestion out, sign it and put it in the suggestion box. Problems and suggestions are thoroughly discussed and voted upon. The Student Council was responsible for the night out system based on academic grade average.

Meetings are every week on Wednesday evening at seven-thirty in the Home Economics building.
