Editor leaves town!

On that fall day so long ago now, we held our first meeting of Aggie Board only to discover we didn't have our materials, but we organized our departments and called it a day. From then on, Hill 204 was the scene of much confused activity on Mondays and Thursdays at 6:30 or as soon as we could get there, anyway.

The Sophomores made their first appearance this year for the sole purpose of cleaning up after the Seniors and Juniors. It was soon made clear that they were good for something else so Departments were added to our annual and Seniors were cleaning up after them.

The most confusing dilemma was the photographers schedule. However that was straightened out the last week before the deadline. The only pictures forgotten were band and Homecoming. Thanks to the Photography Club we developed pictures when there wasn't time to take them to Ken.

The Asiatic Flu slowed us down to a standstill for about two weeks but everyone recovered in due time and came back to Aggie Board. The Sophomores and Juniors even went to Bemidji one day to learn how to put out their annual but also came back with ideas for the rest of us to use.

Amid Sputniks, satellites, rockets, and Elvis being drafted we came through only wearing out some nerves and two of Miss Larsen's erasers.
