

SENIORS

We, of the Senior class, look back on our years of work and play, of sadness and laughter, with light hearts. We are now rewarded for our efforts, and because of them; we leave the campus of the Northwest School as a group better prepared to meet the world. We owe thanks to the administration and faculty, who through the years have given of their knowledge and experience to better our lives.

Our leadership camp at Itasca State Park has surely helped many of the Seniors and Juniors each year in the task of leading the student body. We need leaders, and this camp helps to prepare us to meet this need.

We, as Seniors, have reached an important milestone in our lives. To reach this has not been easy. We are mindful of the courage we many times had to muster to press on in the upward climb.
