

JUNIORS

As Juniors, we arrived on campus as real upperclassmen, 118 strong. This year we are the largest of the classes here at school.

Since our freshman year, we have lost many of our classmates, but transfers from other schools have even increased our class size from year to year.

About two weeks after school started, our last year's president called the junior class to order. We elected new class officers and picked out our rings.

This year we also put on our first class play, "The Valley of Ghosts."

In the academic area many of us wrote a term paper for the first time. It was our hardest single assignment. We will never forget the long nights of hard work to meet the deadline.

As Juniors we are naturally looking forward to becoming Seniors. We hope to be one of the best Senior classes to graduate from this school.
