

SOPHOMORES

CLASS OFFICERS AND ADVISORS

The word sophomore comes from two Greek words which mean wise and foolish. Maybe we do many foolish things, but we feel we are becoming wiser as we continue on our way up the class ladder.

It was a good feeling to come back this year and be upperclassmen. We saw many new faces but missed many familiar smiles. We soon found the new personalities as pleasant as our old friends.

This year our class began to accept some of the responsibilities that go with the distinction of being upperclassmen. These responsibilities included such things as assisting with the Junior-Senior banquet and working on the yearbook.
